

## Winning games

**Where to start:** Kids are experts on their favorite games and they will enjoy explaining the ins and outs of Uno or Animal Crossing. Start with a conversation about games they like to play inside. How do you set it up? How many people can play? How does someone win the game?

**Prompt:** What is the best game to play inside? How do you play it?

**How to go deeper:** If it's a video game, can you imagine a board game version? What would it look like? If it's a board game, would it make a good video game? (Use the back of this page to write.)
